

Transportation Planning Projects

Purpose

While less visible than other projects, transportation planning is an important component of the Hualapai Moving Forward program.

Transportation planning helps the Tribe prioritize transportation investments, improve roadway safety, maintain infrastructure, manage costs and build a safer, more reliable transportation system for the future. Having well documented transportation plans is also critical to help the Tribe get its fair share of Federal Funding.

Tribal roads serve a variety of users including those commuting to work and visitors to Grand Canyon West.

Three Transportation Planning Projects Completed in 2026

Long-Range Transportation Plan (LRTP)

The LRTP inventories and analyzes the Tribe's transportation system to set 20-year priorities for roads, transit, trails, and aviation – all while providing community-informed recommendations for a safer, more connected transportation network. Tribal Transportation Program funding can only be spent on projects identified in the LRTP.

Safety Action Plan (SAP)

The SAP identifies high-risk areas, analyzes crash patterns, and incorporates community input to develop data-driven strategies that improve roadway safety and support future funding opportunities.

Transportation Asset Management Plan (TAMP)

The TAMP provides a practical guide for making data-driven decisions to maintain and improve the Tribe's transportation network. It brings together current inventory and condition data, as well as long-term planning strategies to support the Tribe's vision for safe, reliable, and resilient infrastructure.

Hualapai Moving Forward is a transformational program bundle of more than 30 projects to enhance the quality of life for all Hualapai and preserve the tribe's heritage for future generations. The program includes projects for transportation, water, community recreation, tribal facilities, as well as capacity building/planning, operations, and maintenance.

Regional Projects

12.1.25 Subject to change based on field conditions and funding. Not to scale.

Legend:

WATER AND SEWER PROJECTS

- 1 Hualapai Water Rights Pipeline Planning Including Design and Environmental - NOT SHOWN ON MAP
- 2 Sewer Lagoon No. 6
- 3 Truxton Aquifer Well
- 4 Water Storage Tanks
- 5 Well No. 1 Piping Replacement
- 6 West Water / Peach Springs Cross Connection

TRIBAL FACILITIES

- 7 Administration Building & Associated Infrastructure
- 8 Pop's Laundry Facility and Ped Bridge
- 9 Public Safety Complex
- 10 Public Services Annexes
- 11 Re-purpose Exit Station 1
- 12 Transportation Complex

COMMUNITY RECREATION

- 13 Rodeo Circle Park
- 14 Sports Complex
- 15 Hualapai Veterans Park

TRANSPORTATION (ROADS, PATHS AND SIDEWALKS)

- 16 Baseline Roadway Maintenance
- 17 Diamond Creek Road Overpass
- 18 Buck & Doe Road
- 19 Diamond Bar Road (Safety Project)
- 20 Diamond Creek Road
- 21 Diamond Creek Road (Walking Path)
- 22 Local Roadways
- 23 Nelson Road
- 24 Peach Springs Road
- 25 Youth Camp Road

PLANNING AND O&MS - NOT SHOWN ON MAP

- Alert Weather Gauges
- Hualapai Entrance
- Hydrant Maintenance, Installation, Piping, & Coverage Plan
- New HIP Homes (Water & Sewer)
- Road Inventory, Pavement Mgmt. System & Road Program SOPs, Manuals, etc.
- Safe Streets for All - Transportation Safety Plan
- Safety Master Plan & Improvements (Sidewalks, ADA, Lighting, Cameras, etc.)
- Long Range Transportation Plan
- Water Strategy/Capital Improvement Plan

Numbering identifies map location only. It does not indicate a project's priority or order of construction.

Peach Springs Area Projects

12.1.25 Subject to change based on field conditions and funding. Not to scale.
